RE: Adopted Fiscal Year Budgets 2012-2013

The **FY 2013 Budgets** representing the General Fund, Special Services District Fund, Solid Waste Enterprise Fund, Capital Improvements Program Fund, Special Purpose Local Option Sales Tax Funds, DHR Building Fund, Confiscated and Seizure Fund, Lease/Commercial Fund, Grant Fund, and Law Library Fund which were approved and adopted on **June 25, 2012** are enclosed in detail in this document. These Budgets were developed in a sound planning process meeting all legal requirements which should ensure our delivery of services to the public during the twelve month period.

Due to the on-going impact of the recession, numerous actions were continued to contain and reduce costs:

1. No Merit increases.
2. No Cost of Living increases.
3. No Longevity payments.
4. Vacancies are frozen except essential Public Safety and selective other critical positions.
5. Training and Travel is limited to State mandated training and Commission training.
6. Outside agencies were reduced in their annual appropriation by 3.5%.

The **General Fund** millage rate remains at **11.894**. The millage supports the **Maintenance and Operations (M&O) Budget** which decreased 1.4% from last year to **\$45,265,345**. The **Capital Improvements Program (CIP) Budget** which is not receiving any tax millage, currently is at **\$1,012,335** which is up 72.8% from last year's budget. This fund is operating from reserves and SPLOST funds.

The **Special Services District Fund** is budgeted at **\$7,190,591** which is 2.9% increase from last year's budget. A two (2) mil increase from **7.272 to 9.272** was necessary to fund this budget for FY 2013. The long time diminishing reserves finally exhausted last year and the operating expenses continue to increase.

The **Solid Waste Enterprise Fund** is budgeted at **\$3,224,425** for **Maintenance & Operations (M&O)** which is a 1.4% decrease from last year. The **Capital Improvements Program (CIP)** is budgeted at **\$598,694** which is an increase of 33.9% from last year. The **2011 CPI of 3.4%** will increase the landfill gate rate from \$34.76 per ton to **\$35.94 effective July 1, 2012**.

Other Funds included in this Budget Document are SPLOST Funds II, III, IV, V and VI; Confiscated and Seizure; DHR Building; Grants; and Law Library. These funds are being maintained in compliance with state laws, regulations and sound accounting practices.

The efforts of the recession are still on-going and will unfortunately continue to impact the revenues of the County. We will be challenged to continue and even increase our cost reduction measures. Lagging employee salaries and our dependency on using reserves for on-going operations are critical issues that must be resolved in the long term. I look forward to working with you on these and other issues as we move forward in the future.

ALBANY, DOUGHERTY COUNTY, GEORGIA

HISTORY

Albany, Dougherty County and Southwest Georgia are rich in southern history and culture. Albany celebrated its 150th anniversary in 1986. The Dougherty County School System and the Sesquicentennial Committee have published a history of the area called Glancing Backward. It is available through the Chamber of Commerce or may be acquired temporarily through inter-library loan or checked out locally. Much of the information below was researched by the publishers of Glancing Backward and is contained in that publication.

Creek Indians were the first residents of this area as early settlers began inhabiting Southwest Georgia in the 1790's. Nelson Tift, a Connecticut native, entered into an agreement with a group of men in 1826 to find a town on the west bank of the Flint River, at that time Baker County. The original purpose for locating a town here was to utilize the Flint River for merchandising and boat traffic, etc. Later, Tift bought the interests of the other gentlemen, convinced that the town would eventually be successful. Albany was actually founded in 1836 when Nelson Tift was 25 years old. Though the Flint River is still a largely navigable waterway, it is now used for recreation.

In 1853, Dougherty County was created out of Baker County by an act of the Georgia General Assembly. It was named for Judge Charles Dougherty of Athens. The County contains 326 square miles of land area with a 2010 census population of 94,565 persons.

Many of the original buildings remain and some have been restored and are in use today. Quail plantations are famous in the area and date back to the founding of Albany. Dougherty County is recognized for its quail and duck hunting, fishing, the Flint River and many cypress swamps.

A famous military unit, the Nelson Rangers, originated in Albany in 1862 and fought in numerous Civil War skirmishes under the leadership of Capt. Thomas N. Nelson, who married the daughter of Nelson Tift.

Albany is still known for its artesian wells, the first drilled around 1881. Because the mineral waters were thought to be curative, the town became a tourist attraction. Today, the artesian well is the City's emblem and is embossed in the seal of the City.

The first industries and business in Albany and Dougherty County included a cotton trade with revenues of \$5,000,000 annually, fertilizer factories, cotton seed oil mills, a pine products plant, cross arms, a gin brush factory and public ginneries. Albany boasted a "natatorium" or indoor swimming pool and the lowest death rate in the southern states. This area was also known as a center for transportation.

Dougherty County has a Board of Commissioners consisting of a Chairman, elected at large, and six commissioners, elected by district, for four year overlapping terms. The County Commission appoints a County Administrator to carry out the daily functions of the County.

Dougherty County has become one of the most progressive counties in the State of Georgia. Many large northern industries have relocated to South Georgia because of its natural resources. Some of those industries are Procter & Gamble, Miller Brewing Company, and the United States Marine Corps Logistics Base.

The County Commission has been in the forefront with many of its endeavors such as new Mental and Physical Health Facilities; an up-to-date Landfill operation, a \$30,000,000 state of the art Jail Facility, a five story Government Center Office Building for County and City administrative departments, a three story Central Square Office Building, two downtown parking decks, a new Public Works Administrative Building, and a new EMS Headquarters.

In February 2009, Dougherty County was certified as a Georgia Work Ready Community. To earn this designation, Dougherty County had to demonstrate a commitment to improving public high school graduation rates and have a percentage of the available and current workforce earn a Work Ready Certificate. The County increased its public high school graduation rate from 57.5% to 63.3% and 1,556 workers in Dougherty County earned their Work Ready Certifications.

In 2011, after years of planning, strategizing and negotiating, a Landfill Gas-to-Energy partnership began between the Marine Corps Logistics Base Albany, GA and Dougherty County. This is the first partnership of its kind for the Department of the Navy. Landfill gas is a naturally occurring gas that results from the decomposition of garbage and is a reliable and renewable energy source. The 20-year partnership allows the County to sell landfill gas produced at the Fleming/Gaissert Road Landfill to MCLB. MCLB will utilize the gas to produce electricity on site which will offset the purchase of electricity as well as natural gas for steam production, thus increasing MCLB's use of alternative energy sources which is a Presidential and Congressional mandate for the Department of the Navy.

We like to think that Nelson Tift would be proud of the progress and success of Albany and Dougherty County. With a history so rich and a future so promising, Dougherty County is destined for further success.

Substance Abuse Program: Dougherty County Jail Facility provides inmates, sentenced to Jail with a history of drug abuse, a six-week educational program on substance abuse. CAPITAL IMPROVEMENT PROGRAM

Capital Improvement Programming may be defined as the process for developing a multi-year plan which sets priorities for funding and purchase of capital improvement items and projects. Dougherty County defines capital improvements as those items or projects with a cost greater than \$5,000 and a useful life of five years or longer. Capital improvements may include acquisition of land, construction of buildings, replacement and acquisition of major pieces of equipment, and major repair of capital equipment and structures. Items or projects not meeting the above criteria will be funded through the operational budget of the current year.

Dougherty County's Capital Improvement Program estimates expenditures and revenues for a six-year period. The County Commission reviews the program yearly, makes modifications as needs change, and then approves the current year expenditures which become the Capital Improvement Budget for that year. In order to give relief to the General Fund, the Commission chose not to allocate any portion of the 2013 property tax to CIP.

A Capital Improvement Program is important to Dougherty County for several reasons:

1. A program of this nature indicates to the community that a rational and systematic approach is being taken in planning for future capital needs.
2. It allows for an orderly replacement of capital facilities and equipment before a crisis situation develops.
3. It helps the County avoid major fluctuations in the tax rate by spreading the costs of capital improvements over several years and by identifying alternate funding sources.
